Re: Acro/State of Arizona Training Follow-up and Reports Overview

Attention Hiring Managers in the MSP Program!

On January 1, 2023, the State of Arizona launched a new MSP program, partnering with Acro Service Corporation and enlisting XRM, Acro's web-based management tool to meet your contingent labor needs. Acro is very excited to be partnering with the State of Arizona to help you meet those labor needs!

Acro is offering an instructor-led, web-based training session in follow-up to the initial sessions. The purpose of this training is to cover reporting capabilities within XRM, and to answer questions regarding reports and processes in the tool.

Take Action!
